Weisskopf to discuss Chandra Deep Fields on NASA TV

Marshall's Dr. Martin Weisskopf, project scientist for Chandra, will discuss the meaning of the Chandra Deep Fields — the deepest X-ray images ever recorded — on NASA TV live at 1 p.m. Tuesday. It will also air at 2, 5, 8 and 11 p.m. Tuesday; and 2 a.m. Wednesday. Weisskopf; astrophysicist Ron Elsner and astronomer Mitzi Adams will be guests on the program "Live From the Edge of Space and Time." A question and answer session will follow the show on the Internet.

Volunteers needed for 'NASA Goes to the Stars' April 13

Volunteers are needed to distribute NASA materials at the "NASA Goes to the Stars" baseball game April 13. The game starts at 7:05 p.m. at Joe Davis Stadium. The Huntsville Stars will open its 2001 season against the West Tennessee Diamond Jaxx. Shuttle mission STS-98 commander Kenneth Cockrell will throw out the first pitch. To volunteer, send an e-mail to Rosa Kilpatrick by Monday.
